

- **Reach4Sight** is a non-profit organisation whose mission is to bring free eye care to the poor of rural and remote communities in South Africa.

- It is headed by a [qualified optometrist](#) with 30 years' experience.

- It is sponsored by companies and individuals so that the patients do not have to pay for the eye examination or spectacles they receive.

- No Reach4Sight staff members get any remuneration for their work.

- Since April 2007 we have examined more than 10000 adults and children and supplied more than 2000 pairs of free spectacles.

- To sustain this outreach project, more [sponsorship](#) is needed. Just R155 can give someone the gift of sight. You as an individual can make a difference with your donation.

- Bank details: Reach4Sight, acc no. 135446, branch code 025609, Standard Bank Blue Route, South Africa, SWIFT code SBZAZAJJ.

**"He who cannot give anything away cannot feel anything either."
